SUMMARY

Dynamic full-stack & blockchain developer with over 7 years of hands-on experience architecting and implementing cutting-edge solutions in web development and decentralized applications. Expertise spans front-end technologies such as React(Next) and Vue(Nuxt), back-end development with Node.js and Python, Laravel, and cloud infrastructure deployment using AWS and Docker. Proven track record in blockchain development, specializing in smart contract creation on Ethereum, Solana and Hyperledger Fabric, with a strong understanding of decentralized protocols and cryptography. Skilled in leading agile teams to deliver scalable and secure applications, leveraging DevOps practices for continuous integration and deployment. Passionate about driving innovation, integrating emerging technologies, and delivering impactful solutions that exceed client expectations.

SKILLS & ABILITIES

HTML5/CSS3/PHP

JavaScript/TypeScript

Bootstrap/SASS/LESS/Tailwind CSS

React/Next/Vue/Nuxt

Node/Express/Laravel

Redux Saga/Thunk

Jest/AWS/Azure/Docker

Git/Github/BitBucket

Three.js/Web3.js

DeFi/Dapp/Smart Contract Development

Blockchain Technology

WORK EXPERIENCE

- 2022.10-2024.5 **Blockchain Developer (Full-time)-Resigned, SoftServe** 
- As a Smart Contract developer, I've amassed over 4 years of experiences crafting innovative blockchain solutions.
 - I've developed a total of 12 Smart Contracts, each tailored to specific use cases and requirements.
 - Additionally, I've designed and implemented four decentralized applications (DApps), leveraging smart contracts to facilitate secure and transparent transactions.
 - My work has involved collaborating closely with teams to understand user needs, ensuring that each Smart Contract and DApps delivers seamless functionality while upholding the highest standards of security and efficiency in blockchain development.
- 2020.3-2022.9 **Senior Full-stack Developer (Full-time), Avira** 
- Developed full-stack web applications from scratch.
 - Collaborated with back-end developers to ensure seamless integration of front-end and back-end components using React(Next) & Vue.js(Nuxt), Express.js&Node.js.
 - Handled time sensitive updates together with content changes and database upgrades.
 - Built the web apps showing the AI & ML projects using MERN stack such as Flacon trust or label studio.
 - Managed project timelines and assisted in feature prioritization to ensure timely delivery or high-quality products using Vue.js.
- 2016.9-2020.2 **Full-stack Developer (Full-time), SoSafe** 
- Completed big projects on time and got good feedback from clients.
 - Implemented fullstack applications using Web3 technologies.
 - Built the MEVN, MEAN stack making sure it worked well and was safe.
 - Used Next.js to make websites load faster and be easier to find on search engines like Google.
 - Made it quicker and easier to release new updates to our software.
 - Added blockchain technology to our software, making it more secure and letting us do more things with it.
 - Got awards for doing great work and shared what I know with others in the team.

EDUCATION

2012.9-2016.8 Bachelor of Computer Science, Bibliothekstrabe 1, 28359 Bremen,
University of Bremen

COMMUNICATION

English- More Fluent

Germany- Native

LICENSES & CERTIFICATIONS

- JavaScript Essential Training (Dec 2022)
- Learning REST APIs (Dec 2022)
- React.js Essential Training (Dec 2022)
- User Experience for Web Design (Dec 2022)
- CSS to SASS: Converting an Existing Site (Nov 2022)
